### TRAFFIC CONTROL

McLeod Safety is committed to providing our clients with Exceptional & Reliable Traffic Control Services with an emphasis on Safety, Professionalism & Customer Support.

As the industry moves towards more safety regulations and demands for a higher level of professionalism and customer service we strive to be leaders in the industry.

### SIGNAGE

McLeod's Sign Shop Team takes great pride in producing a complete line of regulatory and construction signage for use in Atlantic Canada and beyond. We use only the highest quality graphic materials in the industry including 3M, Avery and Oracle.

At McLeod's we understand that our customers require Signage that not only meet industry standards but are competitively priced, in stock and available for quick delivery.

We produce Aluminum Signs, Placards, Construction and Regulatory Signage and all types of Safety Signs for interior or exterior use. We carry a large inventory of signage hardware including square posts and brackets.

### SAFETY SUPPLIES

McLeod Safety offers innovative safety products backed by a Team of Safety specialists who are committed to exceeding expectations.

**High Visibility Work Wear:** Visibility is one of the key components to your personal safety in the construction and industrial workplace. Ensure you are visible by wearing high visibility CSA approved work wear. We carry a large assortment of fluorescent HiVis clothing as well as work wear with reflective strips to ensure your visibility day or night.

**PPE:** We carry a very wide selection of CSA approved hard hats, safety glasses, fall protection, vests, traffic control cuffs, hearing protection, welding shields, fire blankets, and much more.
